**PILA THE MODULAR
PLANTER SYSTEM**

PILA helps you create summer oasis

Plenty of space for luscious green!

The new PILA product line from LECHUZA enables you to combine stylish planters with practical storage modules for the perfect oasis of comfort on your balcony or patio.

PILA is the space-saving solution for more fresh ideas in compact areas, making it easy for you to achieve an organized, harmonious arrangement.

Mix and match and plant PILA according to your own personal tastes with trendy colors like coral red, sand brown, petrol blue, pastel green, light grey and slate.

PILA - truly ingenious

PILA Planter
For miniature
balcony gardens
full of delightful
fruits and veggies

PILA Storage
With plenty of
space to store
accessories

**PILA
Stick-System**
Fresh herbs
are always
within reach

OVERVIEW OF THE **THREE** DIFFERENT PILA MODULES

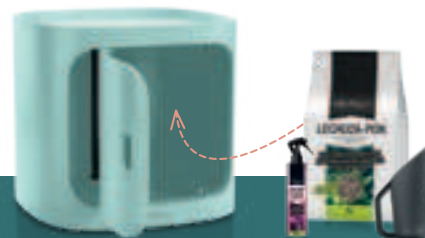

PILA Color Stick-System

- suitable for 4 grow pots with ø 10–12 cm | 4–5 inch
- ideal for herbs and strawberries
- plants can be kept in their pots when placed in the planter
- with the original LECHUZA stick watering system

PILA Color Planter

- easy to plant thanks to the removable planter liner with recessed handles
- combines perfectly with the storage element
- with the original LECHUZA self watering system and a large water reservoir

PILA Color Storage

- the perfect place to store garden accessories and décor
- with overflow function – to keep everything dry inside
- the ideal base for a plant tower with PILA Color Stick-System or with the PILA Color Planter

Coaster

Practical coaster – to match all of the modules.

Flexible anywhere

Assembling and installing the planter and the practical storage element is quick and easy. The matching coaster can be used flexibly to make the PILA modules mobile. It's so practical and fits perfectly under the individual modules.

PILA Storage
A place for
everything – and
everything in
its place

PILA COLOR – **ORGANIZATION AND FRESH AIR** IN YOUR LIVING SPACE

Plants not only make our dwellings greener and cozier, they also improve the indoor climate – when positioned correctly, they can enhance your wellbeing. The new PILA planter system is equipped with the original LECHUZA self watering system to continuously supply your new green roommates with just the right amount of water and nutrients. When set up as a plant tower with the roomy storage module, they are the perfect pairing of storage space and healthy greenery.

The best plants for your home office

Ficus:

A classic office plant. It releases a great deal of oxygen throughout the day and cleans the air of poisonous vapors (e.g. from paint finishes or plastics).

Phlebodium:

This attractive fern with striking, bluish green leaves is an interesting eyecatcher for semi-shady areas.

Additional air purifiers for your office:

Spathiphyllum, bowstring hemp and monstera

PERFECT SNACK GARDEN

PILA planters can transform even the smallest of city balconies into a miniature oasis of comfort with plenty of healthy treats for snacking. Now you don't have to go any further than your balcony to enjoy delicious fruits, herbs or vegetables!

Berries for breakfast!

It doesn't get any fresher than this – strawberries and other tasty fruits thrive with LECHUZA and can be eaten straight from the vine. Delightfully delicious!

PILA Planter
Berries, tomatoes or oregano – receive all the care they need thanks to the self watering system

PILA Stick-System
Plant care made easy thanks to the integrated stick system

THANKS TO THE **LECHUZA** **SELF WATERING SYSTEM** YOU CAN ENJOY YOUR OWN **FRESH GREEN** **FOLIAGE** AND **COLORFUL** **BLOSSOMS**.

LECHUZA means caring for your plants as nature intended! Plant care has never been so easy. Once placed in the planters, plants can take care of themselves perfectly. This is because the integrated water reservoir supplies plants with the right amount of water for optimal growth. The water level indicator takes the guesswork out of watering.

*The LECHUZA
self watering system explained:*

Stick watering system:

Simply insert the stick into the grow pot from below and then place it into the planter. Then all you have to do is fill the water reservoir and the plant will receive the optimum supply of water and nutrients via the self watering system.

Classic watering system:

The plant is placed directly in the planter with LECHUZA-PON. The water reservoir ensures that your plants receive all the water and nutrients they need for optimal growth just as nature intended.

*Healthy, vibrant plants -
even without the green thumb!*

Make gardening child's play

PILA Stick-System can be used immediately without repotting plants. Choose herbs, fruits or vegetables for snacking based on your tastes and seasonal availability. It's easy to replace plants that have been harvested, offering you a world of delightful edibles to discover and pick straight from the vine again and again.

PILA - versatile combinations

PILA is versatile enough to be combined in many ways. You can stack up to three modules to create a space-saving storage solution and a flexible arrangement of your plants. Whether as a plant tower or a standalone planter, PILA always attracts attention and brings the latest living trends to your home with six trendy colors.

Drain plug

The removable drain plug allow excess rainwater to drain from all modules.

Coaster

Virtually disappears under the planters and ensures easy mobility.

STAY TUNED FOR MORE EXCITING **NEW PRODUCTS** FROM LECHUZA

Enjoy summer with LECHUZA's latest planters – for the modern urban garden, a cozy corner on the patio or XXL plants reminiscent of your favorite vacation destination – LECHUZA has the right planter for everyone.

TRIO Stone 30

TRIO 30 is now also available with a trendy finish with a natural stone look. A decorative low privacy screen or miniature garden patch with three separately plantable liners. A matching trellis* for climbing plants makes TRIO 30 the perfect choice for adding a splash of green to walls. With the matching pedestal* it can also be used as a raised bed.

CANTO Stone wide

This long planter is a stylish way to divide rooms, separate office space or create private areas in gardens or on patios. At over 29.5 inch | 75 cm high, CANTO Stone wide offers an effective privacy screen when planted to create a uniquely comfortable setting. Available the natural stone look of the Stone Collection, it can be flexibly combined with matching coasters* at any time.

*sold separately

New colors

LECHUZA's popular Stone Collection now features a new color. Now the collection features a brilliant new quartz white in addition to stone grey and graphite black. New in the Color and Cottage Collection: sand brown and light grey. Graphite black makes a bold statement – and is now also available in the Cottage Collection.

CLASSICO Color 60/70

Its timeless design makes the popular CLASSICO Color planter from LECHUZA an essential addition to every home. The matte finish perfectly complements any setting and makes the planter an absolute must-have for plant aficionados all over the world. To ensure even XXL plants with large root volumes have enough space, CLASSICO Color is now available in new sizes with diameters of 23.6 inch | 60 cm and 27.6 inch | 70 cm.
